CONTENTS

NUMBER 1

A. S. Sambo	1	The measurement and prediction of global and diffuse components of solar radiation for Kano in northern Nigeria
P. C. Jain	7	Estimation of monthly average hourly global and diffuse irradiation
M. M. Elsayed, I. E. Megahed and **M. M. El-Refaee**	15	Experimental testing of fluidized bed thermal storage
H. A. Kubba and **W. Y. Saman**	27	Evaluation and control of thermal gains through Iraqi windows
P. C. Jain	41	Accurate computations of monthly average daily extraterrestrial irradiation and the maximum possible sunshine duration
K. Al-Jamal, O. Alameddine, H. Al-Shami and **N. Shaban**	55	Passive cooling evaluation of roof pond systems
A. Anani, S. Zuamot, F. Abu-Allan and **Z. Jibril**	67	Evaluation of wind energy as a power generation source in a selected site in Jordan
S. M. Habali, M. A. S. Hamdan, B. A. Jubran and **A. I. O. Zaid**	75	Optimization of insulation thickness in a long term solar storage system
S. M. Habali, M. A. S. Hamdan, B. A. Jubran and **A. I. O. Zaid**	83	Strategies for solar heating systems
L. B. Mullett	93	Samuel Pierpont Langley 1834–1906. The solar spectrum and the solar constant
Technical Notes		
M. D. C. Doyle and **A. S. Sambo**	99	Correlation of diffuse solar radiation with air mass
K. K. Gopinathan	103	The distribution of global and sky radiation throughout Lesotho
K. K. Gopinathan	107	A new model for estimating total solar radiation
S. Barbaro, G. Cannistraro, C. Giaconia and **A. Orioli**	111	The ASHRAE clear sky model. An evaluation in the Mediterranean Zone
Book Reviews		
L. B. Mullett	117	A Victorian World of Science. By A. Sutton
J. S. Clancy	118	Biomass: Regenerable Energy. Edited by D. O. Hall and R. P. Overend
Calendar of Events 1988	119	

NUMBER 2

N. Fraidenraich and **H. S. Costa**	121	Procedure for the determination of the maximum surface which can be irrigated by a photovoltaic pumping system
A. M. Mujahid and **A. R. M. Alamoud**	127	An easily designed and constructed photovoltaic pyrheliometer
J. Cañada and **V. Ruiz**	131	Energy output for large C.P.C. array configurations located in Madrid, Sevilla and Valencia. Application to industrial process heat requirements
D. E. Prapas, B. Norton and **S. D. Probert**	137	Flow distributions of the heat transfer fluid for E–W and N–S alignments of CPC solar energy collectors
S. A. Tabassum, B. Norton and **S. D. Probert**	141	Heat removal from a solar-energy collector with a heat-pipe absorber
W. A. Kamal	147	A theoretical and experimental study of the basin-type solar still under the Arabian Gulf climatic conditions
S. S. Nandwani	159	Experimental and theoretical analysis of a simple solar oven in the climate of Costa Rica—I
M. M. A. Taha, A. M. A. Khalifa and **M. Akyurt**	171	Solar cookers with banded point focus collectors
M. Martinez	177	On the electrification of rural Mexico
Technical Notes		
M. N. Dalimin and **P. K. Chakrabarty**	181	Gathering of daily instantaneous global solar radiation using a microcomputer-based data acquisition system
M. H. Omar and **M. A. Mosalam Shaltout**	185	Solar net radiation over a bare wet field at Giza, estimated on the basis of its close relationship with global radiation
P. S. Asha Iyer, S. Srinivasa Murthy and **M. V. Krishna Murthy**	191	Correlations for evaluation of the performance characteristics of vapour absorption refrigeration cycles
S. Saknidy and **A. Alhasan**	199	Solar energy transfer through a substrate
Calendar of Events 1988	205	

NUMBER 3

J. D. Burton	207	The mechanical coupling of wind turbines to low lift rotodynamic water pumps
A. S. K. Darwish and **A. A. M. Sayigh**	215	Wind energy potential in Iraq
A. Tofighi	223	Use of solar concentrator for thermal treatment of refractory oxides
F. O. Akuffo and **E. A. Jackson**	229	Simulation studies on a compact solar water heater in the tropics

H. Gabler and **J. Luther**	239	Wind–solar hybrid electrical supply systems. Results from a simulation model and optimization with respect to energy pay back time
A. H. Zahed, M. D. Bashir and **A. M. A. Khalifa**	249	A perspective of solar drying of crops—a country profile
Technical Notes		
S. D. Oda and **H. H. Hashem**	263	A case study for three combined cycles of a solar–conventional power generation unit
M. A. I. El-Shaarawi and **R. A. Ramadan**	271	Variation of the performance of intermittent solar refrigerators with initial temperature
J. G. M. Massaquoi	281	Global solar radiation in Sierra Leone (West Africa)
H. Amzil and **S. Martinuzzi**	285	Effective minority carrier diffusion length of polycrystalline silicon solar cells
G. Datta, H. P. Garg, R. A. Ray and **J. Prakash**	289	Performance prediction of a cabinet-type solar drier
A. Soler	293	Solar radiation correlations for Madrid
A. Soler and **A. Barriuso**	299	The parameterisation of global radiation for cloudless skies as a function of solar elevation and the Linke turbidity factor
A. Anani and **Z. Jibril**	303	Role of thermal insulation in passive designs of buildings
C. D. Rakopoulos	315	Ambient temperature and humidity effects on the performance and nitric oxide emission of spark ignition engined vehicles in Athens/Greece
C. Sorapipatana, R. H. B. Exell and **D. Borel**	321	A bispectral method for determining global solar radiation from meteorological satellite data
M. Chander, K. L. Chopra, J. C. Joshi and **A. K. Mukerjee**	329	Comparative study of different orientations of photovoltaic system
A. O. Odukwe and **S. O. Enibe**	335	Energy resources and reserves in Nigeria
Calendar of Events	339	

NUMBER 4

W. Wolde-Ghiorgis	341	Wind energy survey in Ethiopia
X. Berger, B. Cubizolles and **I. Donet**	353	Radio-sounding data for the determination of the infra-red sky radiation
C. Torra, J. A. Cusidó and **J. Puigdomènech**	365	Some experiences on design and calculation of sunspaces in Mediterranean climates
A. Anani, F. Abu Allan and **S. Kiwan**	379	A three-pronged approach to the study of efficiency of solar water collectors in Jordan
M. R. I. Ramadan, S. Aboul-Enein and **A. A. El-Sebaii**	387	A model of an improved low cost-indoor-solar-cooker in Tanta
C. Bainier, C. Hernandez and **D. Courjon**	395	Solar concentrating systems using holographic lenses

D. Sadhu	405	Wind power potential of Rio Grande do Sul state of Brazil
S. Chungpaibulpatana and **R. H. B. Exell**	411	The effects of using a one-node heat capacitance model for determining solar collector performance parameters by transient test methods
H. P. Garg, N. K. Bansal and **D. S. Hrishikesan**	423	Thermal performance of a solar hot water system with plastic bag water heater array
Technical Notes		
J. Prakash, H. P. Garg and **D. S. Hrishikesan**	433	Effect of tracking on the performance of a built-in-storage type solar water heater
S. Aboul-Enein and **M. R. I. Ramadan**	441	Storage of low temperature heat in salt-hydrate melts for heating applications
I. A. Olwi, M. A. Ghazi and **M. A. Mohsen**	445	Wind tunnel simulation of airflow through rows of attached buildings
A. Anani and **F. Abu-Allan**	451	Potential of renewable energy in Jordan
Book Reviews		
A. A. M. Sayigh	455	Renewable Energy Technologies—Their Applications in Developing Countries. By L. A. Kristoferson and V. Bokalders
A. A. M. Sayigh	455	Physics, Technology and Use of Photovoltaics. By R. J. van Overstraeten and R. P. Mertens
Calendar of Events	457	

NUMBER 5

R. R. Al-Hindi, A. M. A. Khalifa and **M. Akyurt**	459	Intermittent duty solar refrigerator assisted by heat pipes
A. I. E. Salem, M. K. Al-Motawakel and **A. H. Bassyouni**	467	Analysis of solar radiation measurements at Sana'a University weather station (15°N, 44°E)
A. Madan	473	Some physics of amorphous silicon and its applications to solar cells
A. Anani and **Z. Jibril**	489	Charts for economic evaluation of WECS
S. K. Nanda and **S. C. Mullick**	495	Optimization of the geometry of a seasonally adjusted solar concentrator employing a tubular absorber
A. M. Taleb and **A. J. H. Al-Wattar**	503	Design of windows to reduce solar radiation transmittance into buildings
Z. Zrikem and **E. Bilgen**	517	A simplified design tool for composite Trombe-Michel wall solar collectors
H. P. Garg and **S. Chakravertty**	525	Thermal analysis of an evacuated tube collector module
H. P. Garg, D. S. Hrishikesan and **R. Jha**	533	System performance of built-in-storage type solar water heater with transparent insulation

E. C. Njau 539 A mathematical correlation between variations in solar radiation parameters—I. Daily sums of global radiation and midday global radiation

A. S. Barker, Jr 543 A solar radiation model and energy saving windows in Canada

C. G. Warfel, J. F. Manwell and **J. G. McGowan** 549 Techno-economic study of autonomous wind driven reverse osmosis desalination systems

C. I. Ezekwe 563 The solar radiation climate of Nigeria

C. Jallut, A. Jemni and **M. Lallemand** 573 Steady-state and dynamic characterization of an array of air flat-plate collectors

Technical Note

K. K. Gopinathan 581 A simple method for predicting global solar radiation on a horizontal surface

Book Reviews

A. A. M. Sayigh 585 Principles of Passive Solar Building Design with Microcomputer Programs. By C. Carter and J. de Villiers

A. A. M. Sayigh 585 Wind Energy 1987. Wind Turbine Shipments and Applications. By T. F. Jaras

Calendar of Events 587

NUMBER 6

M. M. El-kassaby 589 Monthly and daily optimum tilt angle for south facing solar collectors; theoretical model, experimental and empirical correlations

J. Cañada 597 Global solar radiation in Valencia using sunshine hours and meteorological data

K. K. Sharma 601 Staebler–Wronski effect: a solution

S. Barbaro, G. Cannistraro, C. Giaconia, A. Orioli, I. Penzar and **S. Nikolova** 605 A clear sky atmospheric model valid for the Mediterranean zone

N. M. Nahar 611 Performance and testing of a low cost solar water heater cum solar cooker

H. Al-Sharbaty, S. Al-Azzawi and **D. Himo** 617 An investigation of the permittivity and dielectric loss exhibited by silica glasses

J. P. Oria and **G. Sala** 629 A good combination: tracking of the sun in polar axis and bifacial photovoltaic modules

S. T. Ahmed 637 Study of single-effect solar still with an internal condenser

P. T. Tsilingiris 645 Computer simulation modelling, thermal performance and design optimisation for solar ponds in Greece

Technical Notes

I. M. Haddad and **M. M. Elsayed**	653	Transient performance of fluidized bed solar receiver at various parametric conditions
K. K. Gopinathan	661	Diurnal variation of the hourly hemispherical insolation
W. Grainger and **J. Rapson**	667	The routine use of wind and solar data in the sizing of small wind turbine and photovoltaic power plants
A. Anani and **F. Abu-Allan**	671	Selection of materials for use in solar water heaters
Calendar of Events	675
